In the evening Rowan Reid will be the key note speaker at the Newstead Hotel, presenting on "30 years as a tree grower" (Register separately).

"Tamar NRM welcomes back Rowan Reid, convenor of the highly successful 2015 Northern Tasmanian Master TreeGrower Course"

Key note presenter and coordinator of the Australian Master TreeGrower Program Rowan Reid has been working with Australian farmers for more than 30 years. He is a volunteer editor of the Australian Agroforestry magazine continues teaching Agroforestry at Melbourne University.

Since 1996, over 100 Master TreeGrower courses have been delivered around Australia involving more than 2000 landholders.

"For me, agroforestry is the integration of trees and shrubs into farming landscapes for conservation and profit. It's all about farmers using trees to improve the environmental, social and economic values of their land." Rowan Reid.

In August, Rowan published the book Heartwood - "The art and science of growing trees for conservation and profit".
